

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

rs—In comparing the number of students enrolled this year with the number d last year, just bear in mind that for 1902-1903 the enrollment is given for the year; and that for 1903-1904 the enrollment is given at the beginning of the year. ill explain why the number of students is, in many schools, less than it was last The difference is quite noticeable in the reports from some of the larger towns es because a large class is promoted to the high schools at the middle of the year.

*Financial Secretary*—W. A. Helsell, Odebolt.

*Steward*—John Franklin Cavell, Ames.

This institution was established by the Iowa legislature in 1858, and endowed by the national land grant of congress in 1862. In accepting the grant of the national government, the Iowa general assembly defined the object of this college as follows: "There shall be adopted and taught in the state agricultural college a broad, liberal and practical course of study, in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning

as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

#### COURSES AND DEGREES.

Courses of study leading to the following degrees are offered:

1. The course in Agriculture—Department of Agronomy.
2. The course in Agriculture—Department of Dairying.
3. The course in Agriculture—Department of Animal Husbandry.

4. The course in Agriculture—Department of Horticulture.

Each of the foregoing is a four years' course leading to the degree of Bachelor of Scientific Agriculture (B. S. A.).

5. The course in Veterinary Science, of four years, leading to the degree of Doctor of Veterinary Medicine (D. V. M.).

6. The course in Mechanical Engineering, of four years, leads to the degree of Bachelor of Mechanical Engineering (B. M. E.).

7. The course of Civil Engineering, of four years, leads to the degree of Bachelor of Civil Engineering (B. C. E.).

8. The course in Electrical Engineering, of four years, leads to the degree of Bachelor of Science in Electrical Engineering (B. Sc. in E. E.).

9. The course in Mining Engineering, of four years, leads to the degree of Bachelor of Science in Mining Engineering (B. Sc. in Mn. E.).

10. The course in Science as Related to the Industries, of four years, leads to the degree of Bachelor of Science (B. Sc.).

11. The course in General and Domestic Science, for women, of four years, leads to the degree of Bachelor of Science (B. Sc.). Women may take any other course desired.

12. Special undergraduate and post-graduate courses are provided along the lines of these respective courses; also short courses in dairying and agriculture, mining engineering, clay working and ceramics, and special course in technological chemistry.

The college is thoroughly furnished with improved laboratories and apparatus. Machine shops with large equipment afford excellent facilities in mechanic arts. The museum and library are selected with special reference to facilitating studies in the courses specified. The best specimens of pure bred stock are provided for illustrative work in animal husbandry. Tuition is free to students of Iowa. For additional information, address,

PRESIDENT A. B. STORMS, Ames.

#### OFFICERS OF THE BOARD.

*President*—John F. Riggs, *ex officio*.

*Treasurer*—Homer N. Silliman, Cedar Falls.

*Secretary*—Alfred Grundy, Cedar Falls.

#### ADMINISTRATIVE OFFICERS.

HOMER H. SEERLEY, President.

ARTHUR W. RICH, Registrar.

JAMES E. ROBINSON, Supt. of Buildings and Grounds.

LILIAN G. GOODWIN, President's Financial Secretary.

ANNA R. WILD, President's General Secretary.

#### FUNCTION OF THE SCHOOL.

By statute the school is established for the training of teachers for the public schools and all the courses of study are framed to that end. The entire work has such special object and is therefore conducted on a high grade of efficiency. Bulletins explaining the system of training and instruction are printed for general information.

#### PROFESSIONAL PUBLICATIONS.

The QUARTERLY BULLETIN gives attention to special studies in educational lines. There has been published thus far a bulletin on school management and another on the teaching of English.

These are sold to teachers at a small price and are valuable helps to them in their work. A new one on physical training will be published during the year.

#### THE CALENDAR.

*Fall Term*—September 1 to November 25.

*Winter Term*—December 1 to March 9.

*Spring Term*—March 15 to June 8.

*Summer Term*—June 11 to July 22.

State Certificate examinations occur at the close of every term for the accommodation of the students and teachers.

#### COURSES OF STUDY.

The program of studies includes the entire range of preparation for primary school, grammar school, and high school teachers, much specialization being allowed to suit the particular work. At the same time there are courses of study for music teachers, art teachers, librarians, physical training teachers, and other special lines allowing much latitude for the kind of preparation preferred.

#### EQUIPMENT.

There is good equipment in all departments including library, laboratories, art rooms, museum, and gymnasium, particularly selected for the work of training teachers.

#### PHYSICAL TRAINING.

There are three Physical Directors in the Faculty, and students are required to give attention to health and physical development. All the games suitable for public schools of different grades and ages are taught in classes, much attention being given to both the theory and the practice of the same in the gymnasium. Physical examinations are given students in order to scientifically direct their work for their special benefit. One of the most modern gymnasiums in the West will be ready for service in 1904-1905.

#### BOARD OF CONTROL OF STATE INSTITUTIONS.

HON. JOHN COWNIE, *Chairman*, South Amana.

HON. L. G. KINNE, Des Moines.

HON. G. S. ROBINSON, Sioux City.

F. S. TREAT, *Secretary*, Des Moines.

## SOLDIERS' ORPHAN'S HOME, DAVENPORT.

---

*Superintendent*—M. T. Gass.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

The average number in the home is about 480, and the age ten and one-half years. The limit beyond which children are not kept in the home is sixteen years of age.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel erected recently, is a handsome and much needed addition to the home.

---

## STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—B. J. Miles.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. Fitzgerald.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and

taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual, and industrial education of the child is carried on at one and the same time.

Any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant or incorrigible, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*—George Mogridge, M. D.

Under management of the board of control of state institutions.

The purpose or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants. The age of admission is between 5 and 21 years, and feeble-minded women may be sent there until 45 years of age.

---

### SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*—Henry W. Rothert.

Under management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should be on hand promptly at the opening of the school and remain until the end of the session.

## COLLEGE FOR THE BLIND, VINTON.

---

*Principal*—Thos. F. McCune, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

### OFFICERS:

John F. Riggs, *president, ex officio*, Des Moines.

Z. C. Thornburg, *secretary and manager*, Des Moines.

### BOOKS FOR 1903.

Hinsdale's Art of Study, American Book Co.....	\$1.00
Nature Study and Related Literature, by Anna E. McGovern	1.00
The School and Farm, W. M. Welch & Co.....	.75

Under the constitution of this organization, each county superintendent is made the manager for his county; thus the county superintendent becomes a supervisor of a course of reading for the

teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the state, acting in conjunction with the superintendent of public instruction, who is chairman *ex officio* of this board. The plan has met with success in all the states where it has been tried.

The state manager will be glad to receive any offered suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the Reading Circle work or books, and for supplies of the official circular, address the manager,

Z. C. THORNBURG,  
Des Moines, Iowa.

## Regulations Governing Uniform Examinations for Teachers' County Certificates.

---

### OPINION OF ATTORNEY-GENERAL:

Section 2622 of the Code provides:

"He (the superintendent of public instruction) shall be charged with the general supervision of all the county superintendents and the common schools of the state."

Section 2735 provides:

"He (the county superintendent) shall at all times comply with the direction of the superintendent of public instruction in all matters within that officer's jurisdiction, and serve as the organ of communication between him and school township, district or independent district authorities, and transmit to them or the teachers thereof, all blanks, circulars or other communications designed for them."

It was the intention of the legislature in enacting these statutes to give to the superintendent of public instruction the general supervision over all school matters in the state, and to make the county superintendent of schools in each county the means whereby the rulings and acts of the superintendent of public instruction are conveyed to or communicated to the persons within the county.

Under the power so conferred by the legislature, the superintendent of public instruction has authority to prescribe the conditions under which county superintendents shall issue certificates to applicants therefor, and to prescribe the names and character of the certificates to be issued by the county superintendents.

I think it is also within the power of the superintendent of public instruction to specify the minimum age of applicants to whom certificates may be issued by county superintendents.

---

The State Board of Educational Examiners is authorized by sections 2628 to 2633 of the Code to issue state diplomas, state certificates, state primary certificates, and special state certificates.

#### *To County Superintendents:*

In harmony with the opinion of the Attorney-General the following regulations with reference to uniform examinations for teachers' certificates are hereby prescribed for the guidance of county superintendents, to take effect September 15, 1902.

### REGULATIONS.

#### CERTIFICATES.

Teachers' certificates issued by county superintendents shall be of three grades, namely: first, second and third. A special certificate and a kindergarten certificate are authorized by law.

## FIRST GRADE.

*Term.*—Certificates of this grade shall be issued for a term of two years.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, elementary civics, elementary algebra, elements of physics, elementary economics, and music.

*Experience.*—Candidates must submit proof of thirty-six weeks' successful experience in teaching.

*Standing required.*—For certificates of this grade, candidates must attain an average standing of 90 per cent; and in orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene a standing of at least 85 per cent, with no other branch below 80 per cent.

*Renewals and indorsements.*—Under the laws of this state there is no provision for the renewal of a certificate or for the indorsement of one by another superintendent. Section 2737 provides for the *issuing* but not for the renewing or indorsing of a certificate. A certificate may not be issued upon an examination taken in another county or state. In addition to furnishing any credentials or other written evidence which the county superintendent may require, the applicant must appear in person.—Opinion Attorney-General.

## SECOND GRADE.

*Term.*—All second grade certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene including special reference to effects of alcohol, stimulants and narcotics, and music.

*Experience.*—In counties issuing only two grades of certificates none is required. Counties issuing three grades may require evidence of at least one term of successful experience.

*Standing required.*—Candidates must attain an average standing of at least 85 per cent, with no branch below 75 per cent.

*Renewals and indorsements.*—See same heading under First Grade.

### THIRD GRADE.

*Term.*—At the discretion of the county superintendent certificates of this grade may be limited to one or two terms.

*Number of certificates.*—Certificates of this grade should not be granted more than once or twice to the same person.

*Educational requirements.*—Same as for second grade.

*Experience.*—None is required.

*Standing required.*—Candidates for certificates of this grade must attain an average standing of at least 80 per cent, with no branch below 65 per cent.

*Renewals and indorsements.*—See same heading under First Grade.

### SPECIAL CERTIFICATES.

*Term.*—Special certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—Candidates for this certificate need be examined in such branches only as they shall be employed to teach. Special certificates may be issued to teachers of music and other special branches, including high school studies.

*Standing required.*—Optional with the county superintendent.

### KINDERGARTEN CERTIFICATES.

*Term.*—Kindergarten certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—“Any teacher in kindergartens shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods and is qualified to teach in kindergartens.”

*Standing required.*—Optional with county superintendent.

### DATES OF EXAMINATIONS.

The examination of applicants for all certificates shall be held on the last Friday and Saturday in each month, at the county seat. Special examinations may be held elsewhere in the county at the discretion of the county superintendent. Applications made at irregular times should be rejected, unless good reasons are given for not attending the regular examinations.

### GENERAL REGULATIONS.

1. All applicants shall be at least eighteen years of age.
2. Candidates undertaking the first grade examination and failing to attain the standard required for a certificate of that grade

may be given a certificate of a lower grade, provided the percentages attained are as high as those required in the grade for which the certificate is granted.

3. County superintendents may at their discretion supplement examinations with additional questions, and for sufficient reasons refuse to grant a certificate to a candidate after he has attained the required standing.

4. Applicants may be required to present such evidences of good moral character as the county superintendent shall demand. The superintendent must be fully satisfied in every particular mentioned in the law before issuing the certificate.

5. The examination papers of applicants for certificates and any testimonials with regard to the moral character of the applicant belong to the county superintendent individually, and are for his guidance alone.

6. The county superintendent is the sole judge of the manner and extent of the examination he will require of applicants for certificates to teach, and unless fully satisfied in all respects it is his duty to refuse to grant a certificate.

7. Candidates to whom a first grade or two years' certificate is granted shall pay two dollars. Applicants for all other certificates issued by a county superintendent are required to pay a fee of one dollar.

Teachers wishing to teach studies not named for county certificates should take examination in such subjects and have the same placed on the certificate.

RICHARD C. BARRETT,  
*Superintendent Public Instruction.*

Des Moines, Sept. 10, 1902.

may be given a certificate of a lower grade, provided the percentages attained are as high as those required in the grade for which the certificate is granted.

3. County superintendents may at their discretion supplement examinations with additional questions, and for sufficient reasons refuse to grant a certificate to a candidate after he has attained the required standing.

4. Applicants may be required to present such evidences of good moral character as the county superintendent shall demand. The superintendent must be fully satisfied in every particular mentioned in the law before issuing the certificate.

5. The examination papers of applicants for certificates and any testimonials with regard to the moral character of the applicant belong to the county superintendent individually, and are for his guidance alone.

The university is the first and only educational institution existing under constitutional provision and organized by a statute of the First General Assembly, passed February 25, 1847.

**GRADUATE COLLEGE**—Graduates of reputable colleges may proceed to the degree of M. A. in one year, Ph. D. in three years. Graduate work in several of the professional colleges is offered. There are twenty-four fellowships and scholarships.

**COLLEGE OF LIBERAL ARTS**—Students are admitted from accredited schools and academies, and from the standard colleges of the state, without examination. Curriculum: numerous elective subjects grouped on three general courses—classical, philosophical, general scientific, and combined liberal arts and various professional courses, leading to the degrees of A. B., B. Ph., and B. S.

**SCHOOL OF POLITICAL AND SOCIAL SCIENCE**—Provides for specialization in a wide range of subjects from commerce to sociology.

**SCHOOL OF APPLIED SCIENCE**—Represents the practical application of the great departments of pure science, and embraces courses in civil, electrical, steam, sanitary and municipal, and mining engineering, leading to the degree of B. S. in C. E., etc.

**SUMMER SESSION**—Especially for superintendents, principals and high school teachers.

**COLLEGE OF LAW**—The course covers three years of nine months each. At the completion the degree of LL. B. is conferred.

**COLLEGES OF MEDICINE, REGULAR AND HOMEOPATHIC**—Courses, four years of nine months each. State bacteriological laboratory, in conjunction with the new general and clinical laboratories, and university hospitals with special clinics. Graduates receive the degree of M. D.

**COLLEGE OF DENTISTRY**—Course, three years of nine months each. Separate building and abundant clinics. Degree of D.D.S.

**COLLEGE OF PHARMACY**—Course, two years of nine months each. Degree of Ph.G., and registration without examination by the State Board of Pharmacy.

All the professional colleges enjoy the privileges of membership in their respective National Associations.

Professors and instructors, 150. Total number of students, 1,393.

Matriculation fee, paid once for all \$10. Tuition free in the Graduate College and to impecunious students in the College of Liberal Arts. A nominal tuition in lieu of laboratory fees of \$10 a semester in the College of Liberal Arts, and of \$25 a semester in all the professional colleges. Soldiers in the Spanish-American war honorably discharged, in all colleges receive \$20 on tuition.

The cost of living in Iowa City is small. Many students pay their way in whole or in part by their work. Graduate fellowships at \$225, scholarships at \$125, and undergraduate scholarships at \$20 are available.

A Dean of Women cares for the special interests of the young women. Semesters begin February 13 and September 21, 1905. Summer session, June 19.

Announcements sent free. Address,

GEORGE E. MACLEAN, *President*.

This institution was established by the Iowa legislature in 1858, and endowed by the national land grant of congress in 1862. In accepting the grant of the national government, the Iowa general assembly defined the object of this college as follows. "There shall be adopted and taught in the state agricultural college a broad, liberal and practical course of study,

in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

#### COURSES AND DEGREES.

Courses of study leading to the following degrees are offered:

1. The course in Agriculture—Department of Agronomy.
2. The course in Agriculture—Department of Dairying.
3. The course in Agriculture—Department of Animal Husbandry.
4. The course in Agriculture—Department of Horticulture.

Each of the foregoing is a four years' course leading to the degree of Bachelor of Scientific Agriculture (B. S. A.).

5. The course in Veterinary Science, of four years, leading to the degree of Doctor of Veterinary Medicine (D. V. M.).

6. The course in Mechanical Engineering, of four years, leads to the degree of Bachelor of Mechanical Engineering (B. M. E.).

7. The course of Civil Engineering, of four years, leads to the degree of Bachelor of Civil Engineering (B. C. E.).

8. The course in Electrical Engineering, of four years, leads to the degree of Bachelor of Science in Electrical Engineering (B. Sc. IN E. E.).

9. The course in Mining Engineering, of four years, leads to the degree of Bachelor of Science in Mining Engineering (B. Sc. IN MN. E.).

10. The course in Science as Related to the Industries, of four years, leads to the degree of Bachelor of Science (B. Sc.).

11. The course in General and Domestic Science, for women, of four years, leads to the degree of Bachelor of Science (B. Sc.). Women may take any other course desired.

12. Special undergraduate and post-graduate courses are provided along the lines of these respective courses; also short courses in dairying and agriculture, mining engineering, clay working and ceramics, and special course in technological chemistry.

The college is thoroughly furnished with improved laboratories and apparatus. Machine shops with large equipment afford excellent facilities in mechanic arts. The museum and library are selected with special reference to facilitating studies in the courses specified. The best specimens of pure bred stock are provided for illustrative work in animal husbandry. Tuition is free to students of Iowa. For additional information, address,

## THE PROVINCE OF THE NORMAL SCHOOL.

The Normal School was founded in 1876, for the special education and training of teachers for the common schools. The Board of Trustees was organized to employ such administrative officers as might be necessary and

such members of the Faculty as the needs of the work done might require. The students are limited to those who have intention of devoting their lives to the profession of teaching and the program of studies is specially planned and managed to that purpose.

#### MANAGEMENT OF THE WORK.

There are four sessions in each school year known as fall term, winter term, spring term and summer term. Classes are admitted at the opening of each session, and are graduated at the close of each session. Graduates are given large assistance in getting remunerative appointments. Undergraduates are also given assistance to appointments. The entire program of studies as printed in the quarterly bulletin is obtainable each term. The standard required is specially strong, definite and complete as the students are to be teachers. Large attention given to the fundamental English branches.

#### SPECIAL LINES OFFERED BY THE SCHOOL.

In addition to the common courses uniformly given in English, Latin, science, history, civics and mathematics, there are courses in music, art, manual training, domestic science, physical training, German, Greek and kindergartning, so that opportunity is given for specialization in modern types of education such as the public schools must have if they are to adapt themselves to the needs of modern civilization. These special and modern types are given so much time and attention that the best preparation is assured.

#### BUILDINGS AND EQUIPMENTS.

The following buildings are now provided and are fully equipped for the purpose planned: (1) North Building, (2) South Building, (3) Administration Building, (4) Auditorium Building, (5) Steam Plant, (6) Power Plant, (7) Gymnasium, (8) Superintendent's home, (9) President's cottage. The equipment in every case is that of the most modern and the most effective kind, specially suited for the work required. The shops, laboratories, library and art rooms are of the latest and best kind, while the gymnasium in apparatus, bathing privileges and provisions for health is one of the first in character in service in the United States.

#### LIST OF ACCREDITED HIGH SCHOOLS.

The following schools are now on the accredited list of the state university and the standard colleges of the state:

All schools must be inspected before they are placed on the accredited list. The requirements for a fully accredited school are:

1. The course of study must not be less than four years of thirty-six weeks each in length, following an elementary course not less than eight years in length.

2. The course of study must require of each pupil not more than four recitations daily.

3. The entire time of at least three teachers must be given to instruction in high school branches.

4. The quality of the instruction given and the character of the textbooks used must be approved by the Collegiate Faculty of the university.

5. Schools seeking considerable credit in science must demonstrate their ability to do successful laboratory work.

6. Schools seeking considerable credit in history and English must give evidence of a special library equipment for these branches.

7. The course of study must include at least two years of foreign language.

Private academies, seminaries, normal schools or other secondary schools meeting the conditions mentioned above, or their equivalent, may be accepted on the same basis as high schools.

Partially accredited schools must meet the same general requirements as the fully accredited schools, but in the former there may be but two teachers, the course of study must be three years in length, recitation periods must be forty minutes long, no teacher may have more than eight recitations daily, and the principal can have but six.

The committee on secondary school relations, appointed by the college department of the State Teachers' Association, co-operates with the State University in determining the list of accredited schools.

## BOARD OF CONTROL OF STATE INSTITUTIONS.

---

HON. G. S. ROBINSON, *Chairman*, Sioux City.

HON. JOHN COWNIE, South Amana.

HON. L. G. KINNE, Des Moines.

F. S. TREAT, *Secretary*, Des Moines.

---

## STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—Lyman D. Drake.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. Fitzgerald.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

Any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant or incorrigible, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation.

---

## SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. Sessions.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

The average number in the home is about 480, and the age ten and one-half years. The limit beyond which children are not kept in the home is sixteen years of age.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel erected recently, is a handsome and much needed addition to the home.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*—George Mogridge, M. D.

Under management of the board of control of state institutions.

The purpose or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants. The age of admission is between 5 and 21 years, and feeble-minded women may be sent there until 45 years of age.

---

### SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*—Henry W. Rothert.

Under management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should be on hand promptly at the opening of the school and remain until the end of the season.

## COLLEGE FOR THE BLIND, VINTON.

*Principal.*—Thos. F. McCune, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

## STATE TEACHER'S READING CIRCLE.

### OFFICERS:

**JOHN F. RIGGS**, *President, Ex officio*, Des Moines.

**Z. C. THORNBURG**, *Secretary and Manager*, Des Moines.

### BOOKS FOR 1904-1905.

#### For Professional Study:

Sabin's Common Sense Didactics, \$1.00, Rand, McNally & Co., Chicago, Ill.

#### For General Culture:

Sheldon's Old Testament Bible Stories, \$1.00, W. M. Welch & Co., Chicago, Ill.

Small & Vincent's Study of Society, \$1.00, American Book Co., Chicago, Ill.

The Teacher's Reading Circle of Iowa is entering upon its fifteenth year. It is performing a work of its own, which cannot be left to any other agency. Under the Constitution of this organization, each county superintendent is made the manager for his county; thus the county superintendent becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the state, acting in conjunction with the superintendent of public instruction, who is chairman ex officio of this board. The plan has met with success in all the states where it has been tried.

The state manager will be glad to receive any offered suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the Reading Circle work or books, and for supplies of the official circular, address the manager.

Z. C. THORNBURG, Des Moines, Iowa.

# Regulations Governing Uniform Examinations for Teachers' County Certificates.

## OPINION OF ATTORNEY-GENERAL:

Section 2022 of the Code provides:

"He (the superintendent of public instruction) shall be charged with the general supervision of all the county superintendents and the common schools of the state."

Section 2735 provides:

"He (the county superintendent) shall at all times comply with the direction of the superintendent of public instruction in all matters within that officer's jurisdiction, and serve as the organ of communication between him and school township, district or independent district authorities, and transmit to them or the teachers thereof, all blanks, circulars or other communications designed for them."

It was the intention of the legislature in enacting these statutes to give to the superintendent of public instruction the general supervision over all school matters in the state, and to make the county superintendents of schools in each county the means whereby the rulings and acts of the superintendent of public instruction are conveyed to or communicated to the persons within the county.

Under the power so conferred by the legislature, the superintendent of public instruction has authority to prescribe the conditions under which county superintendents shall issue certificates to applicants therefor, and to prescribe the names and character of the certificates to be issued by the county superintendents.

I think it is also within the power of the superintendents of public instruction to specify the minimum age of applicants to whom certificates may be issued by county superintendents.

## REGULATIONS.

In harmony with the opinion of the Attorney-General the following regulations with reference to uniform examinations for teachers' certificates are hereby prescribed for the guidance of county superintendents.

### CERTIFICATES.

Teachers' certificates issued by county superintendents shall be of three grades, namely: first, second and third. A special certificate and a kindergarten certificate are authorized by law.

### FIRST GRADE.

*Term.*—Certificates of this grade shall be issued for a term of two years.  
*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic.

ography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, elementary civics, elementary algebra, elements of science, elementary economics, and music.

*experience.*—Candidates must submit proof of thirty-six weeks' successful experience in teaching.

*standing required.*—For certificates of this grade, candidates must have an average standing of 90 per cent; and in orthography, reading, grammar, arithmetic, geography, grammar, history of the United States, civics, physiology and hygiene a standing of at least 85 per cent, with no branch below 80 per cent.

*renewals and indorsements.*—Under the laws of this state there is no provision for the renewal of a certificate or for the indorsement of one by the superintendent. Section 2737 provides for the *issuing* but not for the *renewing* or *indorsing* of a certificate. A certificate may not be issued on an examination taken in another county or state. In addition to furnishing credentials or other written evidence which the county superintendent may require, the applicant must appear in person.—Opinion Attorney-General.

#### SECOND GRADE.

*term.*—All second grade certificates shall be issued for a term not to exceed one year.

*educational requirements.*—The examination of candidates shall include proficiency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene including special reference to effects of alcohol, stimulants and narcotics, and music.

*experience.*—In counties issuing only two grades of certificates none is required. Counties issuing three grades may require evidence of at least six months of successful experience.

*standing required.*—Candidates must attain an average standing of at least 85 per cent, with no branch below 75 per cent.

*renewals and indorsements.*—See same heading under First Grade.

#### THIRD GRADE.

*term.*—At the discretion of the county superintendent certificates of this grade may be limited to one or two terms.

*number of certificates.*—Certificates of this grade should not be granted more than once or twice to the same person.

*educational requirements.*—Same as for second grade.

*experience.*—None is required.

*Standing required.*—Candidates for certificates of this grade must attain an average standing of at least 80 per cent, with no branch below 65 per cent.

*Renewals and endorsements.*—See same heading under First Grade.

#### SPECIAL CERTIFICATES.

*Term.*—Special certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—Candidates for this certificate need be examined in such branches only as they shall be employed to teach. Special certificates may be issued to teachers of music and other special branches, including high school studies.

*Standing required.*—Optional with the county superintendent.

#### KINDERGARTEN CERTIFICATES.

*Term.*—Kindergarten certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—“Any teacher in kindergarten shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods and is qualified to teach in kindergartens.”

*Standing required.*—Optional with county superintendent.

#### DATES OF EXAMINATIONS.

The examination of applicants for all certificates shall be held on the last Friday and Saturday in each month, at the county seat. Special examinations may be held elsewhere in the county at the discretion of the county superintendent. Applications made at irregular times should be rejected, unless good reasons are given for not attending the regular examinations.

#### GENERAL REGULATIONS.

1. All applicants shall be at least eighteen years of age.
2. Candidates undertaking the first grade examination and failing to attain the standard required for a certificate of that grade may be given a certificate of a lower grade, provided the percentages attained are as high as those required in the grade for which the certificate is granted.
3. County superintendents may at their discretion supplement examinations with additional questions, and for sufficient reasons refuse to grant a certificate to a candidate after he has attained the required standing.
4. Applicants may be required to present such evidences of good moral character as the county superintendent shall demand. The superintendent must be fully satisfied in every particular mentioned in the law before issuing the certificate.

5. The examination papers of applicants for certificates and any testimonials with regard to the moral character of the applicant belong to the county superintendent individually, and are for his guidance alone.

6. The county superintendent is the sole judge of the manner and extent of the examination he will require of applicants for certificates to teach, and unless fully satisfied in all respects it is his duty to refuse to grant a certificate.

7. Candidates to whom a first grade or two year's certificate is granted shall pay two dollars. Applicants for all other certificates issued by a county superintendent are required to pay a fee of one dollar.

8. Teachers wishing to teach studies not named for county certificates should take examination in such subjects and have the same placed on the certificate.

JOHN F. RIGGS,  
*Superintendent Public Instruction.*

#### NOTES.

The State Board of Educational Examiners is authorized by sections 2628 to 2632 of the Code to issue state diplomas, state certificates, state primary certificates, and special state certificates.

**COUNTY CERTIFICATES.** "If the examination is satisfactory, and the applicant is of good moral character, of which fact the superintendent shall require proof unless he has a personal knowledge thereof, and is in all other respects possessed of the necessary qualifications of an instructor, a certificate to that effect shall issue for a term not to exceed one year. But to applicants passing an examination in the following additional branches: elementary civics, elementary algebra, elements of physics and elementary economics, a certificate shall issue for a term of two years, upon proof of thirty-six weeks' successful experience in teaching." Section 2737, School Laws 1902.

**RENEWALS.** "The county superintendent has no authority under the law to *renew, endorse, or duplicate* a certificate either in his own county or one issued in another." *Opinion of Attorney-General.* Note 7, Section 2737, School Laws 1902.

**KINDERGARTEN CERTIFICATES.** "Any teacher in *kindergartens* shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods, and is qualified to teach in kindergartens." Section 2777, School Laws of 1902.

**SPECIAL COUNTY CERTIFICATES.** "Candidates for examination in special studies need be examined in such branches only; but no special teacher shall be employed to teach any study not included in the certificate." Section 2786, School Laws 1902.

## IOWA SCHOOL SYSTEM.

### CORPORATIONS.

#### Classes:

School Township—Usually divided into sub-districts. Some are not.

Independent Corporations—Independent city, town and village districts and rural independent districts.

#### Membership of Boards:

School Township—If divided into sub-districts, the board consists of one member from each sub-district.

A director-at-large is chosen when the number of sub-districts is even.

If the school township is not divided into sub-districts, the board consists of three members elected by the township at large.

(A few organized under an old law have five members.)

#### Independent Corporations—

For corporations containing territory in a city of the first class (15,000 or more), or a city under special charter, the board consists of seven members.

For other independent city, town or village districts, the board consists of five members.

For rural independent districts the board consists of three members.

#### Elections—Meetings:

Regular—Sub-district meeting.

First Monday in March in the sub-districts of school townships.

Notices posted by director of sub-district.

Annual Meeting—Held in all corporations (sub-districts are not corporations) on second Monday in March.

Notices posted by the secretary of the board.

Special—Special sub-district meetings called by the director of sub-district.

Special meetings of corporation called by the school board.

### ELECTORS.

Qualifications:—Male citizen of the United States, at least twenty-one years of age, a resident of the state six months, and of the county sixty days next preceding the election, a legal resident of the sub-district or cor-

poration in which he offers his ballot. Female citizens possessing the same qualifications as males, except as to sex, may vote on propositions to issue bonds or to increase the school tax levy.

#### **Meetings:**

**Sub-District Meetings—Time:** First Monday in March.

**Powers of Electors—**Elect a director for the sub-district.

**Vote schoolhouse tax on the sub-district.**

**Limit—**Fifteen mills on the dollar including the amount voted at the annual meeting.

**Annual Meeting of the Corporation—Time:** Second Monday in March.

**Powers of Electors—**Elect directors in independent districts and directors-at-large in school townships. In town and city districts, elect a treasurer for two years.

When ten day's notice has been given that such propositions will be submitted, the electors have power:

To direct a change of text-books, but the board makes the adoption.

To direct the sale or other disposition of school property, and the disposition of the proceeds of the sale.

To add branches to the course of study.

To instruct the board that school buildings may or may not be used for meetings of public interest other than school.

To direct the transfer of school funds from the schoolhouse fund to either the teachers' or the contingent funds.

To authorize the board to purchase roads to school sites.

To vote schoolhouse tax.

To vote on the question of county uniformity of text-books.

To authorize the board to issue school building bonds.

**Special—**Called by the board. Ten days' notice required.

**Powers of Electors—**Direct sale of school property and disposition of the proceeds of such sale.

**Vote schoolhouse tax for purchase of sites, roads and the erection of schoolhouses.**

**To authorize the board to issue school building bonds.**

#### **OFFICERS.**

**Superintendent of Public Instruction:—**Chosen biennially by the electors of the state. Salary, \$2,200.

**Powers and Duties—**Has general supervision of all county superintendents and the common schools of the state.

**Calls meetings of the county superintendents, appoints institutes, approves institute faculties, visits institutes and other educational meetings, and delivers addresses on educational subjects.**

Renders opinions in writing concerning school law to school officers.  
Hears and determine cases brought before him on appeal from the decision of county superintendents.

Reports biennially to the governor the condition of the schools and annually to the auditor of state the school population.

**Hold examinations for state diplomas and state certificates.**

**Issue state diplomas and state certificates and revoke the same for cause.**

**Kinds of State Certificates**—Regular state certificate, primary state certificate and special state certificate in music, penmanship or drawing, all of which are valid for five years; and two-year state certificate.

**School Boards:—Election—Terms:** In school townships, the members are chosen by the electors of their respective sub-districts, on the first Monday in March, for a term of one year; except that members at large are chosen by the electors of the entire township on the second Monday in March. In independent districts, members are chosen on the second Monday in March for a term of three years—one-third being chosen each year. No compensation.

**Eligibility**—Male or female; If male a qualified elector of the corporation or sub-district. If female, same qualifications except to as sex.

**Membership**—In school townships, the board consists of one member from each sub-district, but if the number of sub-districts be even a director-at-large is chosen. If the township is not divided into sub-districts the board consists of three members, chosen by the electors of the entire township.

In all independent corporations including all or part of a city of the first class or a city under special charter the board consists of seven members; in all other independent city, town and village districts of five; and rural independent districts of three members.

**Meetings—Organization**—The board organizes on the third Monday in March by electing a president from among its members.

On the third Monday in September it elects from outside the board a secretary and a treasurer for one year, except that in independent city and town corporations the electors choose a treasurer on the second Monday in March for a term of two years. The compensation of the secretary and treasurer is determined by the board.

Special meetings may be called by the president or by the secretary when requested in writing by a majority of the board, but notice must be delivered to each member in person.

**Powers and Duties**—Select shoolhouse sites and erect schoolhouses according to plans approved by the county superintendent with funds voted by the electors.

ELLIS J. HOOK, *Secretary and Manager*, Decorah.

### MEMBERS OF BOARD.

JOS. E. VANCE, County Superintendent, Marion.  
A. M. DEYOE, County Superintendent, Garner. †  
JOHN P. MCKINLEY, County Superintendent, Sibley.  
MISS MARY HOSTETLER, County Superintendent, Marshalltown.  
MRS. LORA L. RICHARDSON, County Superintendent, Mt. Ayr.

### BOOKS FOR 1905-06.

#### For Professional Study:

Putnam's Psychology, American Book Company, 521-531 Wabash Avenue, Chicago, Ill., \$1.00.

Painter's History of Education, D. Appleton & Company, Fine Arts Building, Chicago, Ill., \$1.00.

Dewey's Lessons on Morals, Hinds, Noble & Eldredge, New York, 40 cents.

Under the Constitution of this organization, each county superintendent is made the manager for his county; thus the county superintendent becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the state, acting in conjunction with the superintendent of public instruction, who is chairman ex-officio of this board. The plan has met with success in all the states where it has been tried.

The secretary will be glad to receive any suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the Reading circle work, and for supplies of the official circular, address the secretary.

E. J. HOOK, *Secretary*,  
Decorah, Iowa.

### REQUIREMENTS.

All schools must be inspected before they are placed on the accredited list. The requirements for a fully accredited school are:

1. The course of study must not be less than four years of thirty-six weeks each in length, following an elementary course not less than eight years in length.
2. The course of study must require of each pupil not more than four recitations daily.
3. The entire time of at least three teachers must be given to instruction in high school branches.
4. The quality of the instruction given and the character of the text-books used must be approved by the Collegiate Faculty of the university.
5. Schools seeking considerable credit in science must demonstrate their ability to do successful laboratory work.
6. Schools seeking considerable credit in history and English must give evidence of a special library equipment for these branches.
7. The course of study must include at least two years of foreign language.

Private academies, seminaries, normal schools or other secondary schools meeting the conditions mentioned above, or their equivalent, may be accepted on the same basis as high schools.

Partially accredited schools must meet the same general requirements as the fully accredited schools, but in the former there may be but two teachers, the course of study must be three years in length, recitation periods must be forty minutes long, no teacher may have more than eight *recitations daily*, and the principal can have but six.

### THE PROVINCE OF THE NORMAL SCHOOL.

The Normal School was founded in 1876, for the special education and training of teachers for the common schools. The Board of Trustees was

organized to employ such administrative officers as might be necessary and such members of the Faculty as the needs of the work done might require. The students are limited to those who have intention of devoting their lives to the profession of teaching and the program of studies is specially planned and managed to that purpose.

#### MANAGEMENT OF THE WORK.

There are four sessions in each school year known as fall term, winter term, spring term and summer term. Classes are admitted at the opening of each session, and are graduated at the close of each session. Graduates are given large assistance in getting remunerative appointments. Undergraduates are also given assistance to appointments. The entire program of studies as printed in the quarterly bulletin is obtainable each term. The standard required is specially strong, definite and complete as the students are to be teachers. Large attention given to the fundamental English branches.

#### SPECIAL LINES OFFERED BY THE SCHOOL.

In addition to the common courses uniformly given in English, Latin, science, history, civics and mathematics, there are courses in music, art, manual training, domestic science, physical training, German, Greek and kindergartning, so that opportunity is given for specialization in modern types of education such as the public schools must have if they are to adapt themselves to the needs of modern civilization. These special and modern types are given so much time and attention that the best preparation is assured.

#### BUILDINGS AND EQUIPMENTS.

The following buildings are now provided and are fully equipped for the purpose planned: (1) North Building, (2) South Building, (3) Administration Building, (4) Auditorium Building, (5) Steam Plant, (6) Power Plant, (7) Gymnasium, (8) Superintendent's home, (9) President's cottage. The equipment in every case is that of the most modern and the most effective kind, specially suited for the work required. The shops, laboratories, library and art rooms are of the latest and best kind, while the gymnasium in apparatus, bathing privileges and provisions for health is one of the first in character in service in the United States.

## BOARD OF CONTROL OF STATE INSTITUTIONS.

HON. G. S. ROBINSON, *Chairman*, Sioux City.

HON. JOHN COWNIE, South Amana.

HON. L. G. KINNE, Des Moines.

F. S. TREAT, *Secretary*, Des Moines.

## STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—Lyman D. Drake.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. Fitzgerald.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

Any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant or incorrigible, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation.

---

## SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. Sessions.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

The average number in the home is about 480, and the age ten and one-half years. The limit beyond which children are not kept in the home is sixteen years of age.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel erected recently, is a handsome and much needed addition to the home.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*--George Mogridge, M. D.

Under management of the board of control of state institutions.

The purposes or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants. The age of admission is between 5 and 21 years, and feeble-minded women may be sent there until 45 years of age.

---

### SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*--Henry W. Rotherth.

Under the management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should be on hand promptly at the opening of the school and remain until the end of the season.

## COLLEGE FOR THE BLIND, VINTON.

*Principal.*—Thos. F. McCune, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

# Regulations Governing Uniform Examinations for Teachers' County Certificates.

## CLASS OF CERTIFICATES.

Teachers' certificates issued by county superintendents shall be of three grades, namely: first, second and third. A special certificate and a kindergarten certificate are authorized by law.

### FIRST GRADE.

*Term.*—Certificates of this grade shall be issued for a term of two years.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, elementary civics, elementary algebra, elements of physics, elementary economics, and music.

*Experience.*—Candidates must submit proof of thirty-six weeks' successful experience in teaching.

*Standing required.*—For certificates of this grade, candidates must attain an average standing of 90 per cent; and in orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene a standing of at least 85 per cent, with no other branch below 80 per cent.

*Renewals and endorsements.*—See note.

### SECOND GRADE.

*Term.*—All second grade certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, and music.

*Experience.*—In counties issuing only two grades of certificates none is required. Counties issuing three grades may require evidence of at least one term of successful experience.

*Standing required.*—Candidates must attain an average standing of at least 85 per cent, with no branch below 75 per cent.

*Renewals and endorsements.*—See note.

### THIRD GRADE.

*Term.*—At the discretion of the county superintendent certificates of this grade may be limited to one or two terms.

*Number of certificates.*—Certificates of this grade should not be granted more than once or twice to the same person.

*Educational requirements.*—Same as for second grade.

*Experience.*—None is required.

*Standing required.*—Candidates for certificates of this grade must attain an average standing of at least 80 per cent, with no branch below 65 per cent.

*Renewals and indorsements.*—See note.

#### SPECIAL CERTIFICATES.

*Term.*—Special certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—Candidates for this certificate need be examined in such branches only as they shall be employed to teach. Special certificates may be issued to teachers of music and other special branches, including high school studies.

*Standing required.*—Optional with the county superintendent.

#### KINDERGARTEN CERTIFICATES.

*Term.*—Kindergarten certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—“Any teacher in kindergarten shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods and is qualified to teach in kindergartens.”

*Standing required.*—Optional with county superintendents.

#### DATE OF EXAMINATIONS.

The examination of applicants for all certificates shall be held on the last Friday and Saturday in each month, at the county seat. Special examinations may be held elsewhere in the county at the discretion of the county superintendent. Applications made at irregular times should be rejected, unless good reasons are given for not attending the regular examinations.

#### GENERAL REGULATIONS.

1. All applicants shall be at least eighteen years of age. Any candidate attempting to deceive as to his age, will be denied a certificate; and should the falsehood not be discovered until after a certificate is issued, said certificate shall be promptly revoked.

2. Candidates undertaking the first grade examination and failing to attain the standard required for a certificate of that grade may be given a certificate of a lower grade, provided the percentages attained are as high as those required in the grade for which the certificate is granted.

3. County superintendents may at their discretion supplement examinations with additional questions, and for sufficient reasons refuse to grant a certificate to a candidate after he has attained the required standing.

4. Applicants may be required to present such evidences of good moral character as the county superintendent shall demand. The superintendent must be fully satisfied in every particular mentioned in the law before issuing the certificate.

5. The examination papers of applicants for certificates and any testimonials with regard to the moral character of the applicants belong to the county superintendent individually, and are for his guidance alone.

6. The county superintendent is the sole judge of the manner and extent of the examination he will require of applicants for certificates to teach, and unless fully satisfied in all respects it is his duty to refuse to grant a certificate.

7. Candidates to whom a first grade or two years' certificate is granted shall pay two dollars. Applicants for all other certificates issued by a county superintendent are required to pay a fee of one dollar.

JOHN F. RIGGS,

December 1, 1905.

*Superintendent Public Instruction.*

#### NOTES.

The State Board of Educational Examiners is authorized by sections 2628 to 2632 of the Code to issue state diplomas, state certificates, state primary certificates, and special state certificates.

**COUNTY CERTIFICATES.** "If the examination is satisfactory, and the applicant is of good moral character, of which fact the superintendent shall require proof unless he has a personal knowledge thereof, and is in all other respects possessed of the necessary qualifications of an instructor, a certificate to that effect shall issue for a term not to exceed one year. But to applicants passing an examination in the following additional branches: elementary civics, elementary algebra, elements of physics and elementary economics, a certificate shall issue for a term of two years, upon proof of thirty-six weeks' successful experience in teaching." Section 2737, School Laws of 1902.

**RENEWALS.** "The county superintendent has no authority under the law to renew, endorse, or duplicate a certificate either in his own county or one issued in another." *Opinion of Attorney-General.* Note 7, Section 2737, School Laws 1902.

**KINDERGARTEN CERTIFICATES.** "Any teacher in kindergartens shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods, and is qualified to teach in kindergartens." Section 2777, School Laws of 1902.

**SPECIAL COUNTY CERTIFICATES.** "Candidates for examination in special studies need be examined in such branches only; but no special teacher shall be employed to teach any study not included in the certificate." Section 2736, School Laws 1902.

**VALIDITY AS TO SUBJECTS TAUGHT.** "The statute requires an examination upon certain subjects before a certificate can be given the applicant to teach in the public schools, but it does not provide either in terms or by implication that instruction may not be given by a teacher who has received a certificate, upon branches not included in the examination." *Opinion of Attorney-General.*

The average number in the home is about 480, and the age ten and one-half years. The limit beyond which children are not kept in the home is sixteen years of age.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel erected recently, is a handsome and much needed addition to the home.

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*--George Mogridge, M. D.

Under management of the board of control of state institutions.

The purposes or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants. The age of admission is between 5 and 21 years, and feeble-minded women may be sent there until 45 years of age.

---

### SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*--Henry W. Rothert.

Under the management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should be on hand promptly at the opening of the school and remain until the end of the season.

## COLLEGE FOR THE BLIND, VINTON.

*Principal.*—Thos. F. McCune, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

# Regulations Governing Uniform Examinations for Teachers' County Certificates.

## CLASS OF CERTIFICATES.

Teachers' certificates issued by county superintendents shall be of three grades, namely: first, second and third. A special certificate and a kindergarten certificate are authorized by law.

### FIRST GRADE.

*Term.*—Certificates of this grade shall be issued for a term of two years.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, elementary civics, elementary algebra, elements of physics, elementary economics, and music.

*Experience.*—Candidates must submit proof of thirty-six weeks' successful experience in teaching.

*Standing required.*—For certificates of this grade, candidates must attain an average standing of 90 per cent; and in orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene a standing of at least 85 per cent, with no other branch below 80 per cent.

*Renewals and endorsements.*—See note.

### SECOND GRADE.

*Term.*—All second grade certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—The examination of candidates shall include competency in and ability to teach orthography, reading, writing, arithmetic, geography, grammar, history of the United States, didactics, physiology and hygiene, including special reference to effects of alcohol, stimulants and narcotics, and music.

*Experience.*—In counties issuing only two grades of certificates none is required. Counties issuing three grades may require evidence of at least one term of successful experience.

*Standing required.*—Candidates must attain an average standing of at least 85 per cent, with no branch below 75 per cent.

*Renewals and endorsements.*—See note.

### THIRD GRADE.

*Term.*—At the discretion of the county superintendent certificates of this grade may be limited to one or two terms.

*Number of certificates.*—Certificates of this grade should not be granted more than once or twice to the same person.

*Educational requirements.*—Same as for second grade.

*Experience.*—None is required.

*Standing required.*—Candidates for certificates of this grade must attain an average standing of at least 80 per cent, with no branch below 65 per cent.

*Renewals and indorsements.*—See note.

#### SPECIAL CERTIFICATES.

*Term.*—Special certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—Candidates for this certificate need be examined in such branches only as they shall be employed to teach. Special certificates may be issued to teachers of music and other special branches, including high school studies.

*Standing required.*—Optional with the county superintendent.

#### KINDERGARTEN CERTIFICATES.

*Term.*—Kindergarten certificates shall be issued for a term not to exceed one year.

*Educational requirements.*—“Any teacher in kindergarten shall hold a certificate from the county superintendent certifying that the holder thereof has been examined upon kindergarten principles and methods and is qualified to teach in kindergartens.”

*Standing required.*—Optional with county superintendents.

#### DATE OF EXAMINATIONS.

The examination of applicants for all certificates shall be held on the last Friday and Saturday in each month, at the county seat. Special examinations may be held elsewhere in the county at the discretion of the county superintendent. Applications made at irregular times should be rejected, unless good reasons are given for not attending the regular examinations.

#### GENERAL REGULATIONS.

1. All applicants shall be at least eighteen years of age. Any candidate attempting to deceive as to his age, will be denied a certificate; and should the falsehood not be discovered until after a certificate is issued, said certificate shall be promptly revoked.

2. Candidates undertaking the first grade examination and failing to attain the standard required for a certificate of that grade may be given a certificate of a lower grade, provided the percentages attained are as high as those required in the grade for which the certificate is granted.

3. County superintendents may at their discretion supplement examinations with additional questions, and for sufficient reasons refuse to grant a certificate to a candidate after he has attained the required standing.

4. Applicants may be required to present such evidences of good moral character as the county superintendent shall demand. The superintendent must be fully satisfied in every particular mentioned in the law before issuing the certificate.

5. The examination papers of applicants for certificates and any testimonials with regard to the moral character of the applicants belong to the county superintendent individually, and are for his guidance alone.

6. The county superintendent is the sole judge of the manner and extent of the examination he will require of applicants for certificates to teach, and unless fully satisfied in all respects it is his duty to refuse to grant a certificate.

7. Candidates to whom a first grade or two years' certificate is granted shall pay two dollars. Applicants for all other certificates issued by a county superintendent are required to pay a fee of one dollar.

JOHN F. RIGGS,

December 1, 1905.

*Superintendent Public Instruction.*

#### NOTES.

The State Board of Educational Examiners is authorized by sections 2628 to 2632 of the Code to issue state diplomas, state certificates, state primary certificates, and special state certificates.

**COUNTY CERTIFICATES.** "If the examination is satisfactory, and the applicant is of good moral character, of which fact the superintendent shall require proof unless he has a personal knowledge thereof, and is in all other respects possessed of the necessary qualifications of an instructor, a certificate to that effect shall issue for a term not to exceed one year. But to applicants passing an examination in the following additional branches: elementary civics, elementary algebra, elements of physics and elementary economies, a certificate shall issue for a term of two years, upon proof of thirty-six weeks' successful experience in teaching." Section 2737, School Laws of 1902.

**RENEWALS.** "The county superintendent has no authority under the law to *renew, endorse, or duplicate* a certificate either in his own county or one issued in another." *Opinion of Attorney-General.* Note 7, Section 2737, School Laws 1902.

**KINDERGARTEN CERTIFICATES.** "Any teacher in *kindergartens* shall hold a certificate from the *county superintendent* certifying that the holder thereof has been examined upon kindergarten principles and methods, and is qualified to teach in kindergartens." Section 2777, School Laws of 1902.

**SPECIAL COUNTY CERTIFICATES.** "Candidates for examination in special studies need be examined in such branches only; but no special teacher shall be employed to teach any study not included in the certificate." Section 2738, School Laws 1902.

**VALIDITY AS TO SUBJECTS TAUGHT.** "The statute requires an examination upon certain subjects before a certificate can be given the applicant to teach in the public schools, but it does not provide either in terms or by implication that instruction may not be given by a teacher who has received a certificate, upon branches not included in the examination." *Opinion of Attorney-General.*

\* NOTE.—The average compensation of teachers was found this year by dividing the total amount paid teachers, male and female, by the total number of months all teachers, male and female, were employed, as is recommended by the National Bureau of Education.

Formerly it has been the custom of this department to compute the average compensation upon the number of different teachers employed, disregarding the time, and the average compensation, as reported for the several corporations. By this method, the average compensation this year is, male \$49.77, female \$40.30.

Hereafter the method employed this year and recommended by the Commissioner of Education will be employed.

† Computed upon average attendance.

‡ Period closed June 30th. Many institutes were held after that date.

### BOOKS ADOPTED FOR 1906-1907.

McMurry's Elements of General Method—*McMillan Company, Chicago, \$1.90.*

Sparks' Expansion of the American Peoples—*Scott, Foresman & Co., Chicago, \$1.00.*

Smith's Systematic Methodology—*Silver, Burdette & Co., Chicago, \$1.00.*

Under the constitution of this organization, each county superintendent is made the manager for his county, thus the county superintendent becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the State, acting in conjunction with the superintendent of public instruction, who is chairman *ex officio* of this board. The plan has met with success in all the states where it has been tried.

The secretary will be glad to receive any suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the reading circle work, and for supplies of the official circular, address the secretary.

E. J. HOOK, *Secretary,*  
*Decorah, Iowa.*

---

\* The county superintendents report 2,908 teachers as enrolled in the reading circle last year.

The University is the first and only institution of higher education existing under constitutional provision, endowed by the United States with two town-

ships of land, and organized February 25, 1847, by the First General Assembly.

**GRADUATE COLLEGE**—Graduates of reputable colleges may proceed to the degree of M. A. in one year, Ph. D. in three years. Graduate work in several of the professional colleges is offered. There are twenty-four fellowships and scholarships.

**COLLEGE OF LIBERAL ARTS**.—Students are admitted from accredited schools and academies, and from the standard colleges of the State, without examination. Curriculum: numerous elective subjects under the group system, and combined liberal arts and various professional courses, leading to the degrees of A. B. and B. S.

**SCHOOL OF POLITICAL AND SOCIAL SCIENCE**—Provides for specialization in a wide range of subjects from commerce to sociology.

**SUMMER SESSION**—Work arranged especially for superintendents, principals, high school teachers and librarians. Next session June 17 to July 27, 1907.

**COLLEGE OF LAW**—The course covers three years of nine months each. At the completion the degree of LL. B. is conferred.

**COLLEGES OF MEDICINE, REGULAR AND HOMEOPATHIC**—Courses, four years of nine months each. State bacteriological laboratory, in conjunction with the new general and clinical laboratories, and university hospitals with special clinics. Graduates receive the degree of M. D.

**COLLEGE OF DENTISTRY**—Course, three years of nine months each. Separate buildings and abundant clinics. Degree of D. D. S.

**COLLEGE OF PHARMACY**—Courses of two and three years of nine months each. Degrees of Ph. G. and Ph. C., and graduates are eligible to take the State board examination without proof of experience.

**COLLEGE OF APPLIED SCIENCE**—Represents the practical application of the great departments of pure science, and embraces courses in civil, electrical, steam, sanitary and municipal, and mining engineering, chemistry and forestry, leading to the degree of B. S. in C. E., etc.

The professional colleges have been charter members in their respective National associations.

Professors and instructors, 133, plus 17 special lecturers. Total number of students, 1,931.

Matriculation fee, paid once for all, \$10. Tuition free in the Graduate College and to impecunious students in the College of Liberal Arts. A nominal tuition in lieu of laboratory fees of \$10 a semester in the Colleges of Liberal Arts and Applied Science, and of \$25 a semester in all the professional colleges. Soldiers in the Spanish-American war honorably discharged, in all colleges receive \$20 on tuition.

The cost of living in Iowa City is small. Many students pay their way in whole or in part by their work. Graduate fellowships at \$225, scholarships at \$125, and undergraduate scholarships at \$20 are available.

A Dean of Women cares for the special interests of the young women. Semesters begin February 4 and September 19, 1907. Summer session, June 17th.

Announcements sent free. Address,

GEORGE E. MACLEAN, *President*.

### REQUIREMENTS.

All schools must be inspected before they are placed on the accredited list. The requirements for a fully accredited school are:

1. The course of study must be not less than four years of thirty-six weeks each in length, following an elementary course not less than eight years in length.
2. The course of study must require of each pupil not more than four recitations daily.
3. The entire time of at least three teachers must be given to instruction in high school branches.
4. The quality of the instruction given and the character of the textbooks used must be approved by the Faculty of the College of Liberal Arts of the University.
5. Schools seeking considerable credit in science must demonstrate their ability to do successful laboratory work.
6. Schools seeking considerable credit in history and English must give evidence of a special library equipment for these branches.
7. The course of study must include at least two years of one foreign language.

*Private academies, seminaries, normal schools or other secondary schools*

meeting the conditions mentioned above, or their equivalent, may be accepted on the same basis as high schools.

Partially accredited schools must meet the same general requirements as the fully accredited schools, but in the former there may be but two teachers, the course of study must be three years in length, recitation periods must be forty minutes long, no teacher may have more than eight recitations daily, and the principal can have but six.

#### THE KIND OF EDUCATION OBTAINABLE AT THE NORMAL SCHOOL.

The Normal School was established by the General Assembly in 1876 for the special education and training of teachers for the common schools. The institution was opened and began its work in September of that year, courses of instruction being provided whereby an education was obtainable by persons who plan to devote themselves to the public service as teachers in all grades of public schools.

The board was authorized to complete such organization of the school in the selection of teachers and officers as the needs of the work required. By statute the students who enter the Normal School must announce their intention of devoting their lives to the profession of public school teaching, and for this reason the course of study is specially planned and managed to that definite purpose, no work being offered at the school that does not have as a direct object the giving of effective preparation for the career of a public school teacher. It has been assumed that it was the province of the school to prepare special teachers, such as kindergartners, primary teachers, music teachers, manual training teachers, secondary school teachers, etc., and such assumption has been approved by the General Assembly making provision for buildings and equipment in conformity to such an excellent standard.

#### MANAGEMENT OF THE WORK.

The school is conducted for forty-two weeks to the school year, divided into terms as follows: fall, winter, spring, summer. The summer term is conducted for a time of six weeks, the other terms for twelve weeks, the sessions opening and closing to conform as nearly as possible with the plans adopted by the public schools. New classes are admitted at the opening of each session and a class is uniformly graduated at the close of each session. Graduates are given large assistance in securing remunerative and favorable appointments. School boards are given all the assistance within the power of the school to secure capable teachers. Under-graduates are given assistance in so far as their qualifications guarantee them success. The program of studies and the work of the school is printed in a quarterly bulletin which is obtainable on application. Bulletins that deal with the scholarship and methods of teaching are sold at cost. The standard required at the school is decidedly strong, definite and complete, giving the work in all respects the very best possible so as to guarantee acceptable service to those thus trained. The largest attention is constantly given to all the fundamental branches, as well as to the methods and plans of instruction. At the same time there is nothing omitted that would guarantee a good career for the student.

#### BUILDINGS AND EQUIPMENT.

The Normal School will have, when the plans of the General Assembly are carried out, a superior plant for all purposes connected with its work.

Its prospects are now superior to any normal school in the United States, while its expense to the public in proportion to its breadth of service is on an economic basis. The trustees have been willing to secure the best and most modern equipment. The ventilation and heating system is the most modern that is possible to be installed, the temperature being regulated in all school-rooms and fresh air being furnished by automatic means, so that contagious diseases are suppressed and the best of health is made possible. Everything about the institution contributes to making it a creditable school in which persons who are to have control of the health, happiness and success of the children in the public school are given a training and a development that is most essential. The shops, laboratories, library, art rooms, gymnasium, and other special features of the school, are among the first in character and fitness of service in the United States.

#### BOARD OF CONTROL OF STATE INSTITUTIONS.

---

\*HON. J. F. HAMILTON, *Chairman*, Cedar Rapids.  
HON. G. S. ROBINSON, Sioux City.  
HON. JOHN COWNIE, South Amana.  
F. S. TREAT, *Secretary*, Des Moines.

---

#### STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—LYMAN D. DRAKE.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. FITZGERALD.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

With few exceptions, any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant, disorderly or incorrigible, or over the age

\*Vice Hon. L. G. Kinne, deceased.

of 9 and under the age of 16 found guilty of crime in a court of record, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation. They may also in exceptional cases be paroled or discharged in less than one year.

---

### SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. SESSIONS.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel, erected recently, is a handsome and much needed addition to the home.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*—GEORGE MOGRIDGE, M. D.

Under management of the board of control of state institutions.

The purposes or objects of the institution are to provide special methods of training of that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants.

## SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*—HENRY W. ROTHERT.

Under the management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should come promptly at the opening of the school and remain until the end of the season.

---

## COLLEGE FOR THE BLIND, VINTON.

---

*Principal*—J. E. VANCE, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the State. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

### CERTIFICATION OF TEACHERS.

---

#### *Outline of the Law and the Regulations of the Educational Board of Examiners Governing the Issuing of Teachers' Licenses.*

---

**Licenses:**—Necessity for: No person may be employed to teach in any public school or receive compensation from public funds for teaching, except he be the holder of a license, valid in the county in which he desires to teach.

**Issue**—All teachers' licenses are issued by the educational board of examiners.

**Registration—Validity**—No license is valid until registered in the office of the county superintendent of the county in which the holder desires to teach. When registered, it is valid in that county until July first following. (Certificates issued by county superintendents under the old law are not subject to registration.)

**Fee for Registration**—In every case of registration, the county superintendent shall collect a fee of one dollar to be paid into the institute fund of the county in which registration is made.

**Examination**—Licenses can be issued only as a result of an examination, except in case of renewals.

**Fee**—Candidates for licenses, whether by examination, re-examination or renewal, must pay an examination fee. For county certificates the fee is paid to the county superintendent, for State licenses, to the educational board of examiners.

**Amount of**—State Examinations—Two-year certificates, two dollars, other State certificates, three dollars, and diplomas, five dollars.

**Disposition of**—Paid into State treasury, except that in case of failure one-half of the fee is refunded.

**County Examinations**—The fee is in every case one dollar.

**Disposition of**—One-half is paid into the institute fund and one-half into the State treasury. No refund.

**Kinds of Licenses**—County certificates, State certificates and diplomas.

**County Certificates**—General provisions.

**Examination**—Place: Office of county superintendent or place provided by the county board of supervisors.

**Conductor**—The county superintendent conducts all examinations for county certificates held in his county. He is required to admit to the examination only those eligible to receive certificates.

**Eligibility of Candidates for Certificates**—

**Character**—Only persons of good moral character are eligible. If the superintendent does not have knowledge of this fact, he should require proof.

**Age**—No person may receive a county certificate until he has reached the age of eighteen years. Only persons who have reached the age of eighteen or who will become eighteen before the next regular examination should be admitted.

**Other qualifications**: Aptness to teach, ability to govern, physical and mental condition, professional spirit, etc.

**Re-Examination**—Candidates failing to make a required standing will, upon a second trial if made within one year, be required to pass in such subjects only as are necessary to enable them to meet the requirements for the grade of certificates they desire. At a third trial, all subjects required in the first examination must be taken.

**Renewals**—Certificates issued under present law:

**Certificates Eligible**—First grade, second grade and special certificates.

Conditions—Candidates must have pursued at least one line of professional inquiry during the life of the certificates to be renewed.

Proof of successful experience and professional spirit. Certificates issued by county superintendents under previous law.

Classes Eligible—First grade two-year certificates in force October 1, 1905, are eligible to renewal.

Second grade certificates, having first grade per cents, in force October 1, 1905, receive such credit as the educational board of examiners may determine.

Conditions—Theme—An essay of from three to five hundred words on a subject selected by the conductor from a list of subjects submitted by the board of examiners.

Experience—Documentary evidence of successful experience during the preceding school year from members of school board and county superintendent, and if the candidate taught in a graded school, from the city superintendent or principal.

Standing—A first grade certificate is renewable as such.

Second Grade Certificates—Grades of ninety per cent or higher are accepted in lieu of an examination in those subjects for a uniform certificate, whether of first or second grade.

Fees—Examination—One dollar; one-half paid into institute fund and one-half into State treasury.

Registration—One dollar. Paid into institute fund.

Classes—Provisional, third grade, second grade, first grade and special certificates.

Provisional—Subjects Required: Orthography, reading, writing, arithmetic, geography, grammar, physiology, U. S. history, didactics and elements of vocal music.

Age—Not less than eighteen years.

Term of—Six months. County superintendent may extend it to July first following date of issue without fee.

Registration—May be registered only in the county in and for which it was issued.

Renewal—Not eligible to renewal. But one may be issued to the same person.

Third Grade—Subjects: Same as for a provisional.

Standing—An average of 65 per cent with no grade below 60.

Age—Not less than eighteen years.

Term—Six months. County superintendent may extend to July first following date of issue without fee.

Registration—Is eligible to registration in any county, but a county superintendent having a sufficient supply of teachers holding higher classes of licenses may not be compelled to register third grade certificates.

Renewal—Not eligible to renewal. Not more than two may be issued to the same person.

#### Second Grade—

Subjects—Same as enumerated above.

Standing—An average of 75 per cent with no grade below 70.

Age—Not less than eighteen years.

Term—Not to exceed two years.

Registration—Is eligible to registration in any county.

Renewal—Is entitled to one renewal.

#### First Grade—

Subjects: Elementary algebra, elementary physics, elementary civics and elementary economics in addition to the subjects required for the above named classes of certificates.

Standing—An average of 85 per cent with no grade below 75.

Age—Not less than eighteen years.

Experience—At least thirty-six weeks of successful experience or having completed an accepted course of study in an approved college or normal school.

Term—Three years.

Renewal—Is eligible to renewal.

Special—Subjects: Any subject or any group of subjects taught in the public schools. In addition to the subject or group of subjects for which a certificate is desired, the candidate shall pass in psychology, school management and principles and methods of instruction as applied to secondary education.

Standing—Same as for a first grade.

Age—Not less than eighteen years.

Experience—Same as for first grade.

Term—Three years.

Renewal—Is eligible to renewal.

#### State Licenses—General Regulations—

Examinations—Dates—Places—The educational board of examiners is required to hold at least two examinations annually and may hold such others as it may determine.

The board determines the date and place of all examinations.

**Regular Annual—Place—Des Moines.**

**Diploma—**An examination for diplomas is offered the Friday and Saturday after Thanksgiving each year.

**Certificates—**An examination for State certificates is offered during the holidays, at the time of the session of the Iowa State Teachers' Association.

**Special—**When requested by fifteen candidates whose applications and fees have been filed with the board of examiners, a special examination will be appointed at the place indicated in the request.

**Conductor—**A State examination must be conducted by a member of the board of examiners or the secretary.

**Substitutions—Examinations—**Nothing may be offered in lieu of an examination to determine scholarship.

**Experience—**Graduates of standard colleges or normal schools, having pursued an approved course in pedagogy, may offer such special preparation to reduce the amount of experience required.

**Re-examination—**Candidates failing in any examination will, upon a second trial, if made within one year, be excused from again passing in those subjects in which they earned a grade of 85 per cent or more. At a third trial, all subjects must be taken.

**Renewals—**Requirements for—Documentary evidence of success and professional spirit during life of certificate to be renewed.

**Thesis—**The filing of a thesis of at least one thousand words with outline and bibliography, on a subject assigned by the board of examiners.

**Fees—**Examination—For a two-year State certificate, two dollars; other State certificates, three dollars, and for State diplomas, five dollars. One-half of the fee is refunded in case of failure.

**Disposition of—**All State examination fees are paid into the State treasury by the educational board of examiners.

**Classes of State Licenses—**Two-year certificates, special certificates, regular certificates and diplomas.

**Two-Year Certificates—Subjects—**Candidates for this certificate pass in the same subjects as are required for first grade county certificates.

**Term—**Two years.

**Standing**—Same as for first grade county certificates. An average of 85 per cent with no grade below 75.

**Experience**—No experience required.

**Eligibility**—Only graduates of approved courses of accredited institutions may be admitted to an examination for two-year State certificates.

**Special Certificates—Kinds**—Primary and music, penmanship or drawing.

**Primary—Subjects—Scholastic**—The usual common branches required for county certificates. A first grade certificate or a second grade with first grade per cents may be offered in lieu of an examination in these subjects.

**Professional—Psychology** of the child, school management, history of education, school laws of Iowa, primary methods, drawing, plant study, vocal music and physical culture.

**Music—Penmanship—Drawing**—Special State certificates are issued for each of these subjects, but a special certificate may not include more than one subject.

**Term**—Five years.

**Standing**—Each case is determined upon its merits.

**Age**—Not less than nineteen years.

**Experience**—At least two years of thirty-six weeks each, but graduates of approved special training courses of standard institutions may be admitted with less experience.

**Regular State Certificates—Subjects**—Orthography, reading, writing, arithmetic, geography, grammar, bookkeeping, physiology, U. S. history, algebra, botany, physics, civics, drawing, Constitution and laws of Iowa, economics, didactics and vocal music.

**Term**—Five years.

**Standing**—Each case is determined upon its merits.

**Age**—Not less than nineteen years.

**Experience**—At least two years of thirty-six weeks each, except that graduates of standard colleges or normal schools who have pursued a course in pedagogy may be admitted with less experience.

**Diplomas—Subjects**—In addition to holding a regular State certificate a candidate must pass in geometry, trigonometry, chemistry, zoology, geology, astronomy, political economy, rhetoric, English literature and general history.

**Term**—During life of the holder.

**Standing**—Each case is determined upon its merits.

**Experience**—At least three years' experience under a State certificate issued by the board of examiners.

### BOOKS ADOPTED FOR 1907-1908.

Bett's, *The Mind and Its Education*—*D. Appleton Co., Chicago, \$1.00.*  
Roak's *Economy in Education*—*American Book Co., Chicago, \$1.00.*  
Long's *American Poems*—*American Book Co., Chicago, 90 Cents.*

Under the constitution of this organization, each county superintendent is made the manager for his county, thus the county superintendent becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the State, acting in conjunction with the superintendent of public instruction, who is chairman *ex officio* of this board. The plan has met with success in all the states where it has been tried.

The secretary will be glad to receive any suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the reading circle work, and for supplies of the official circular, address the secretary.

P. J. SCHROEDER, *Secretary,*  
DUBUQUE, IOWA.

NOTE—Two vacancies exist at the present time.

## REQUIREMENTS.

All schools must be inspected before they are placed on the accredited list. The requirements for a fully accredited school are:

1. The course of study must be not less than four years of thirty-six weeks each in length, following an elementary course not less than eight years in length.
2. The course of study must require of each pupil not more than four recitations daily.
3. The entire time of at least three teachers must be given to instruction in high school branches.
4. The quality of instruction given and the character of the textbooks used must be approved by the Faculty of the College of Liberal Arts of the University.
5. Schools seeking considerable credit in science must demonstrate their ability to do successful laboratory work.
6. Schools seeking considerable credit in history and English must give evidence of a special library equipment for these branches.
7. The course of study must include at least two years of one foreign language.

Private academies, seminaries, normal schools or other secondary schools meeting the conditions mentioned above, or their equivalent, may be accepted on the same basis as high schools.

Partially accredited schools must meet the same general requirements as the fully accredited schools, but in the former there may be but two teachers, the course of study must be three years in length, recitation periods must be forty minutes long, no teacher may have more than eight recitations daily, and the principal can have but six.

The University is the first and only institution of higher education existing under constitutional provision, endowed by the United States with two townships of lands, and organized February 25, 1847, by the First General Assembly.

**GRADUATE COLLEGE**—Graduates of reputable colleges may proceed to the degree of M. A. in one year, Ph. D. in three years. Graduate work in several of the professional colleges is offered. There are twenty-four fellowships and scholarships.

**COLLEGE OF LIBERAL ARTS**—Students are admitted from accredited schools and academies, and from the standard colleges of the State, without examination. Curriculum: numerous elective subjects under the group system, and combined liberal arts and various professional courses, leading to the degrees of A. B. and B. S.

**SCHOOL OF POLITICAL AND SOCIAL SCIENCE**—Provides for specialization in a wide range of subjects from commerce to sociology.

**THE SCHOOL OF EDUCATION**—Prepares for high school positions, principalships and superintendencies. Graduates eligible for first grade State teachers' certificates without examination.

**SUMMER SESSION**—Work arranged especially for superintendents, principals, high school teachers and librarians. Next session June 22 to July 27, 1908.

**COLLEGE OF LAW**—The course covers three years of nine months each. At the completion the degree of LL.B. is conferred.

**COLLEGES OF MEDICINE, REGULAR AND HOMEOPATHIC**—Courses, four years of nine months each. State bacteriological laboratory, in conjunction with the new general and clinical laboratories; and university hospitals with special clinics. Graduates receive the degree of M. D.

**COLLEGE OF DENTISTRY**—Course, three years of nine months each. Separate buildings and abundant clinics. Degree of D. D. S.

**COLLEGE OF PHARMACY**—Courses of two and three years of nine months each. Degrees of Ph. G. and Ph. C., and graduates are eligible to take the State board examination for immediate registration as pharmacists.

**COLLEGE OF APPLIED SCIENCE**—Embraces courses in civil, electrical, mechanical, sanitary and municipal, and mining engineering, chemistry and forestry, representing practical application of the principles of pure science. Degrees of B. E., and B. S. in chemistry.

**THE UNIVERSITY SCHOOL OF MUSIC (affiliated)**—Offers courses in vocal and instrumental music, harmony, theory, and history of music.

The professional colleges have been charter members in their respective national associations.

Professors and instructors (administrative and library staff not included) 129 plus 9 special lecturers. Total number of students, 1906-7, 2,072.

Matriculation fee, paid once for all, \$10; tuition free in the Graduate College, and to impecunious students in the Colleges of Liberal Arts and Applied Science. Tuition in the Colleges of Liberal Arts and Applied Science, \$10 a semester, including all laboratory fees, except actual cost of breakage and loss of laboratory materials. Tuition in the Colleges of Law, Medicine, Homeopathic Medicine, Dentistry, and Pharmacy, \$25 a semester. Honorably discharged soldiers of the Spanish-American war receive free tuition in the Colleges of Liberal Arts and Applied Science, and receive a rebate of \$25 a year on their tuition in other colleges; diploma fee in all colleges, \$10.

The cost of living in Iowa City is low. Many students pay part or all of their expenses by their work. Graduate fellowships at \$225, scholarships at \$125, and undergraduate scholarships at \$20 are available.

A dean of women cares for the special interests of young women. Semesters begin February 10, and September 16, 1908; summer session June 22, 1908.

Announcements sent free on application to

*Treasurer*—HERMAN KNAPP, Ames.

*Financial Secretary*—W. A. HELSELL, Odebolt.

*Steward*—BENJAMIN EDWARDS.

This institution was established by the Iowa legislature in 1858, and endowed by the National land grant of Congress in 1862. In accepting the grant of the National Government, the Iowa General Assembly defined the object of the college as follows: "There shall be adopted and taught in the State Agricultural College a broad, liberal and practical course of study, in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

#### COURSES AND DEGREES.

Courses of Study leading to the following degrees are offered:

- I. *Agriculture*, all four-year courses, leading to the degree of Bachelor of Scientific Agriculture (B. S. A.).
  1. Course in Agronomy.
  2. Course in Dairying.
  3. Course in Animal Husbandry.
  4. Course in Horticulture.
  5. Course in Science and Agriculture.
- II. *Engineering*, all four-year courses:
  1. Course in Mechanical Engineering, leading to the degree of Bachelor of Mechanical Engineering (B. M. E.).
  2. Course in Civil Engineering, leading to the degree of Bachelor of Civil Engineering (B. C. E.).
  3. Course in Electrical Engineering, leading to the degree of Bachelor of Science in Electrical Engineering (B. Sc. in E. E.).
  4. Course in Mining Engineering, leading to the degree of Bachelor of Science in Mining Engineering (B. Sc. in Mn. E.).
  5. Course in Ceramics, leading to the degree of Bachelor of Mining Engineering in Ceramics (B. M. E. in Cer.).
- III. *Veterinary Science*, a four years' course, leading to the degree of Doctor of Veterinary Medicine (D. V. M.).

**IV. Science, all four-year courses:**

1. Course in General Science, leading to the degree of Bachelor of Science (B. Sc.).
2. Course in General and Domestic Science, for women, leading to the degree of Bachelor of Science (B. Sc.).
3. Course in Domestic Science, for women, leading to the degree of Bachelor of Domestic Science (B. D. S.).

Women may take any other course desired.

Special under-graduate and post-graduate courses are provided along the lines of these respective courses; also short courses in dairying and agriculture, mining engineering, clay working and ceramics, domestic science, and special course in technological chemistry.

The college is thoroughly furnished with improved laboratories and apparatus. Machine shops with large equipment afford excellent facilities in mechanic arts. The museum and library are selected with special reference to facilitating studies in the courses specified. The best specimens of pure bred stock are provided for illustrative work in husbandry. Tuition is free to students of Iowa. For additional information, address,

PRESIDENT A. B. STORMS, Ames.

#### MEETING OF THE BOARD.

The business of the school is conducted by stated quarterly meetings held in March, June, September and December, at which meetings full and specific reports are filed by all officers and all committees, policies and plans for the future being determined. Special meetings are held on the call of the president whenever important contracts or other business of large importance must be considered.

#### ADMINISTRATIVE OFFICERS.

*President*—HOMER H. SEERLEY, Cedar Falls.  
*Financial Secretary*—LILLIAN G. GOODWIN, Cedar Falls.  
*General Office Secretary*—ANNA R. WILD, Cedar Falls.  
*Superintendent of Buildings and Grounds*—JAMES E. ROBINSON, Cedar Falls.

In case of absence or disability of the President, C. P. Golgrove, member of the faculty, is Acting President.

The Normal School was established by the General Assembly in 1876 for the special education and training of teachers for the common schools. The institution was opened and began its work in September of that year, courses of instruction being provided whereby an education was obtainable by persons who plan to devote themselves to the public service as teachers in all grades of public schools.

The board was authorized to complete such organization of the school in the selection of teachers and officers as the needs of the work required. By statute the students who enter the Normal School must announce their intention of devoting their lives to the profession of public school teaching, and for this reason the course of study is especially planned and managed to that definite purpose, no work being offered at the school that does not have as a direct object the giving of effective preparation for the career of a public school teacher. It has been assumed that it was the province of the school to prepare special teachers, such as kindergartners, primary teachers, music teachers, manual training teachers, secondary school teachers, etc., and *such assumption has been approved by the General Assembly making provision for buildings and equipment in conformity to such an excellent standard.*

## MANAGEMENT OF THE WORK.

The school is conducted for forty-two weeks to the school year, divided into terms as follows: fall, winter, spring, summer. The summer term is conducted for a time of six weeks, the other terms for twelve weeks, the sessions opening and closing to conform as nearly as possible with the plans adopted by the public schools. New classes are admitted at the opening of each session and a class is uniformly graduated at the close of each session. Graduates are given large assistance in securing remunerative and favorable appointments. School boards are given all the assistance within the power of the school to secure capable teachers. Under-graduates are given assistance in so far as their qualifications guarantee them success. The program of studies and the work of the school is printed in a quarterly bulletin which is obtainable on application. Bulletins that deal with the scholarship and methods of teaching are sold at cost. The standard required at the school is decidedly strong, definite and complete, giving the work in all respects the very best possible so as to guarantee acceptable service to those thus trained. The largest attention is constantly given to all the fundamental branches, as well as to the methods and plans of instruction. At the same time there is nothing omitted that would guarantee a good career for the student.

## BUILDINGS AND EQUIPMENT.

The Normal School will have, when the plans of the General Assembly are carried out, a superior plant for all purposes connected with its work. Its prospects are now superior to any normal school in the United States, while its expense to the public in proportion to its breadth of service is on an economic basis. The trustees have been willing to secure the best and most modern equipment. The ventilation and heating system is the most modern that is possible to be installed, the temperature being regulated in all schoolrooms and fresh air being furnished by automatic means, so that contagious diseases are suppressed and the best of health is made possible. Everything about the institution contributes to making it a creditable school in which persons who are to have control of the health, happiness and success of the children in the public school are given a training and a development that is most essential. The shops, laboratories, library, art rooms, gymnasium, and other special features of the school, are among the first in character and fitness of service in the United States.

## BOARD OF CONTROL OF STATE INSTITUTIONS.

---

\*HON. J. T. HAMILTON, *Chairman*, Cedar Rapids.

HON. G. S. ROBINSON, Sioux City.

HON. JOHN COWNIE, South Amana.

F. S. TREAT, *Secretary*, Des Moines.

---

## STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—W. L. KUSER.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. FITZGERALD.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

With few exceptions, any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant, disorderly or incorrigible, or over the age of 9 and under the age of 16 found guilty of crime in a court of record, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation. They may also in exceptional cases be paroled or discharged in less than one year.

---

## SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. SESSIONS.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the

---

\*Vice Hon. L. G. Kinne, deceased.

course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed. The new chapel, erected recently, is a handsome and much needed addition to the home.

---

## INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*—GEORGE MOGRIDGE, M. D.

Under management of the board of control of state institutions.

The purposes or objects of the institution are to provide special methods of training of that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants.

---

## SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*—HENRY W. ROTHERT.

Under management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should come promptly at the opening of the school and remain until the end of the season.

## COLLEGE FOR THE BLIND, VINTON.

*Principal*—J. E. VANCE, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity in the State. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

## POINTS FOR DETERMINING THE ACCEPTANCE OF REGULAR AND COLLEGIATE COURSES OF INSTRUCTION IN AC- CORDANCE WITH CHAPTER 148, ACTS OF THIRTY-SECOND GENERAL ASSEMBLY.

(Sections 2634-f to 2634-h, School Laws, 1907.)

### DEFINITION.

*An institution whose graduates are entitled to certificates shall provide at least a sufficient number of class hours of college grade to offer opportunity for freshman, sophomore, junior and senior years' work, making a total minimum of sixty hours for any one semester. Laboratory hours shall be reckoned as not less than two for one recitation hour.*

### THE EIGHT POINTS.

I. The number of class hours for the heads of departments and students shall not exceed twenty a week.

II. A faculty properly qualified shall consist of graduates of colleges who have pursued graduate work equivalent at least to that required for a master's degree.

III. The library shall consist of at least five thousand volumes, selected with reference to college subjects and exclusive of public documents.

IV. The laboratory equipment shall be worth not less than \$5,000 and so distributed as to establish at least an efficient chemical, physical, botanical and zoological laboratory.

V. The means of support is defined as requiring a permanent endowment of not less than \$200,000 or a fixed assured income exclusive of tuition equivalent to the interest derived from at least \$200,000.

VI. The average salary of the heads of departments, exclusive of the salary of the president, shall be at least \$1,000.

VII. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of these departments should be devoted to college work.

VIII. The graduates must show the completion of a four-year secondary course and a four-year college course above the usual eight grades of the common schools, and the standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

#### THE GROUPING OF COLLEGES.

1. Colleges fully meeting the eight points shall constitute group A.
2. Colleges meeting either five, six or seven of the eight points shall constitute group B.
3. Colleges fully meeting either three or four of the eight points shall constitute group C.

## ACCREDITED SCHOOLS.

Conditions prescribed by the State University.

All schools must be inspected before they are placed on the accredited list. The requirements are as follows:

### REVISED STANDARDS FOR ACCREDITING HIGH SCHOOLS.

#### I. Fully Accredited Schools—

(1) The course of study must not be less than four years of thirty-six weeks each in length, following an elementary course not less than eight years in length, and must include at least two years of some foreign language.

(2) The course of study must require of each pupil not more than four recitations daily.

(3) The entire time of at least three teachers must be given to instruction in high school branches. (This may include the principal or superintendent, who should devote a part of his time to supervision.)

(4) The number of daily periods of class-room instruction given by any one teacher should not exceed six, each to extend over at least forty minutes. (The University advises but five or six class periods, and it must decline to accredit schools permitting more than seven periods for any teacher.)

(5) The minimum scholastic attainment of all high school teachers should be equivalent to graduation from a reputable college or university. (A teacher holding a first-class five-year state certificate shall be regarded as meeting the scholastic requirements, but such teacher should give evidence of special preparation in subjects taught.)

(6) The laboratory and library facilities shall be adequate to the needs of instruction in the subjects taught.

(7) The quality of instruction, character of text-books and efficiency of equipment must be approved by the Faculty of the College of Liberal Arts of the University.

(8) The location and construction of the buildings, the lighting, heating, and ventilation of the rooms, the nature of the lavatories, corridors, closets, water supply, school furniture, apparatus, and methods of cleaning shall be such as to insure hygienic conditions for both pupils and teachers.

(9) Private academies, seminaries, normal schools or other secondary schools meeting the conditions set forth above, or their equivalent, may be accepted on the same basis as high schools.

#### II. Partially Accredited Schools—

In general the minimum standards of the fully accredited school should be met, but the following exceptions are noted:

(1) The course of study may be but three years in length.

(2) The teaching force may consist of but two teachers.

The Normal School was established by the General Assembly in 1876 for the special education and training of teachers for the common schools.

By statute the students who enter the Normal School must announce their intention of devoting their lives to the profession of public school teaching, and for this reason the course of study is especially planned and managed to that definite purpose, no work being offered at the school that does not have as a direct object the giving of effective preparation for the career of a public school teacher.

The board was authorized to complete such organization of the school in the selection of teachers and officers as the needs of the work required. The institution was opened and began its work in September of that year, courses of instruction being provided where an education was obtainable by persons who plan to devote themselves to the public service as teachers in all grades of public schools.

#### MANAGEMENT OF THE WORK.

The school is conducted for forty-two weeks to the school year, divided into terms as follows: fall, winter, spring, summer. The summer term is conducted for a time of six weeks, the other terms for twelve weeks, the sessions opening and closing to conform as nearly as possible with the plans adopted by the public schools. New classes are admitted at the opening of each session and a class is uniformly graduated at the close of each session. Graduates are given large assistance in securing remunerative and favorable appointments. School boards are given all the assistance within the power of the school to secure capable teachers.

The Course of Study offers—

1. The Special Teacher Courses giving Special Diplomas.
2. The Normal Course giving Bachelor of Didactics Degree.
3. The College Course giving Master of Didactics Degree for three-year course and Bachelor of Arts Degree for four-year course.

Full information and Bulletin sent on application.

#### BOOKS ADOPTED FOR 1908-1909.

Professional Book—White's Elements of Pedagogy, published by the American Book Co., Chicago, Ill. Price \$1.00.

Culture Book—Sherman & Reed's Essentials of Teaching Reading, published by the University Publishing Co., Lincoln, Neb. Price \$1.00.

Under the constitution of this organization, each county superintendent is made the manager for his county, thus the county superintendent

becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the state, acting in conjunction with the superintendent of public instruction, who is chairman *ex officio* of this board. The plan has met with success in all the states where it has been tried.

The secretary will be glad to receive any suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the reading circle work, and for supplies of the official circular, address

P. J. SCHBOEDER, *Secretary*,  
Dubuque, Iowa.

#### STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—W. L. KUSER.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. FITZGERALD.

Under management of the Board of Control of State Institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of a child is carried on at one and the same time.

With few exceptions, any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant, disorderly or incorrigible, or over the age of 9 and under the age of 16 found guilty of crime in a court of record, may be committed to these schools by any court of

record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation. They may also in exceptional cases be paroled or discharged in less than one year.

---

### SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. SESSIONS.

Under management of the Board of Control of State Institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children, as from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed. The new chapel, erected recently, is a handsome and much needed addition to the home.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*—GEORGE MOGRIDGE, M. D.

Under management of the Board of Control of State Institutions.

The purposes or objects of the institution are to provide special methods of training of that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants.

## SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*—HENRY W. ROTHERT.

Under management of the Board of Control of State Institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should come promptly at the opening of the school and remain until the end of the season.

---

## COLLEGE FOR THE BLIND, VINTON.

---

*Principal*—J. E. VANCE, Vinton, Iowa.

Under management of the Board of Control of State Institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.

Make rules and regulations for the government of themselves, the teachers and pupils and for the protection of school property.

Suspend or expel pupils for cause and authorize teachers to suspend them temporarily, notice being given at once to the president of the board.

Divide the corporation into sub-districts or wards, determine the number of schools that shall be maintained and designate the school each pupil shall attend.

Transport pupils when there will be a saving of expense and the pupils will receive increased school advantages or where they reside an unreasonable distance from school.

Admit non-resident pupils and determine the terms of admission. Provide school privileges in adjoining school corporations and pay for same.

Provide for visiting the schools and aid in enforcing the rules and regulations.

When authorized by the electors at the regular annual meeting, permit the use of school buildings for purposes other than public schools.

Provide for the holding and conducting of the annual meeting of the corporation on the second Monday in March and provide by proper notices for the submitting of propositions.

Call special elections.

**Financial—Taxes—**Estimate the amount needed for the teachers' and contingent funds and for the schoolhouse fund to pay on bonds and interest. (The electors vote schoolhouse tax for the erection of schoolhouses.)

**Bonds—**Issue school funding bonds to pay judgments; and, when authorized by the electors, they may issue school building bonds for the purpose of erecting, completing or improving schoolhouses.

*County Board of Education—*Only in counties having county uniformity.

**County Uniformity—Adoption—**Adopted by vote of the electors of rural corporations of the county at the regular annual meeting.

**Membership—**County Superintendent, chairman.

County Auditor, secretary.

Members of the county board of supervisors.

**Powers and Duties—**Adopt and contract for text-books and supplies for use in the rural schools of the county after advertising for bids.

Purchase for sale to teachers and pupils the text-books and supplies adopted by them.

Appoint depository agents to keep the books and supplies for sale and make settlement with them.

#### INDEBTEDNESS—LIMIT.

**Constitutional—**Five per cent of the value of taxable property.

**Statutory—**One and one-fourth per cent of the actual value of the taxable property. (When the board of an independent school corporation having a population of three thousand or less is petitioned by a majority of the electors and the proposition carries by a two-thirds vote, the limit is two and one-half per cent.) A tax voted is not indebtedness.

#### FUNDS.

*Schoolhouse Fund—*For erection, completion and improvement of schoolhouses and purchase of libraries, school sites and roads.

Sources—

**District Taxes—**Levied by county supervisors.

Voted by electors for erection of schoolhouses and payment of debts incurred for the same; purchase of sites and roads.

County certificate examination fees are deposited, one-half with the county treasurer for the institute fund, and one-half with the state treasurer.

Registration fees are deposited with the county treasurer.

**County Certificates—General provisions.**

**Examination—Place:** Office of county superintendent or place provided by the county board of supervisors.

**Conductor—**The county superintendent conducts all examinations for county certificates held in his county. He is required to admit to the examination only those eligible to receive certificates.

**Eligibility of Candidates for Certificates—**

**Character—**Only persons of good moral character are eligible.

If the superintendent does not have knowledge of this fact he may require proof.

**Age—**No person may receive a county certificate until he has reached the age of eighteen years. Only persons who have reached the age of eighteen or will become eighteen before the first day of the month following the next regular examination should be admitted.

**Other Qualifications:** Aptness to teach, ability to govern, physical and mental condition, professional spirit, etc., are shown by county superintendent's estimate of "general fitness."

**Dates—Regular—**The last Friday and the Wednesday and Thursday preceding of January, June, July and October of each year.

**Supplemental—**One supplemental examination may be appointed by the president of the Educational Board of Examiners at the request of the county superintendent. Same dates as the regular examination.

**Special—**Appointed by the president of the Educational Board of Examiners upon request of the county superintendent. Provisional certificates only may be obtained at a special

examination and grades received at such an examination may not receive credit toward a regular certificate.

**Re-examination**—Candidates failing to make a required standing will, upon a second trial, if made within one year, be required to pass in such subjects only as are necessary to enable them to meet the requirements for the grade of certificate they desire. At a third trial, all subjects required in the first examination must be taken.

**Renewals**—Certificates issued under present law:

**Certificates Eligible**—First grade, second grade and special certificates.

**Conditions**—Candidates must have pursued at least one line of professional inquiry during the life of the certificate to be renewed.

**Proof of successful experience and professional spirit.**

**Certificates issued by county superintendents under previous law.**

**Classes Eligible**—First grade two-year certificates in force October 1, 1905, are eligible to renewal.

Second grade certificates, having first grade per cents, in force October 1, 1905, receive such credit as the Educational Board of Examiners may determine.

**Conditions—Theme**—An essay of from three hundred to five hundred words on a subject selected by the applicant from a list of subjects submitted by the Board of Examiners.

**Experience**—Documentary evidence of successful experience during the preceding school year from members of school board and county superintendent, and if the candidate taught in a graded school from the city superintendent or principal.

**Standing**—A first grade certificate is renewable as such.

**Second Grade Certificates**—Grades of ninety per cent or higher are accepted in lieu of an examination in those subjects for a uniform certificate, whether of first or second grade.

**Fees—Examination**—One dollar; one-half paid into institute fund and one-half into state treasury.

**Registration**—One dollar. Paid into institute fund.

**Classes**—Provisional, third grade, second grade, first grade and special certificates.

**Provisional—Subjects Required:** Orthography, reading, writing, arithmetic, geography, grammar, physiology, United States history, didactics and elements of vocal music.

## POINTS FOR DETERMINING THE ACCEPTANCE OF REGULAR AND COLLEGIATE COURSES OF INSTRUCTION IN ACCORDANCE WITH CHAPTER 148, ACTS OF THIRTY-SECOND GENERAL ASSEMBLY.

(Sections 2634-f to 2634-h, School Laws, 1907.)

### DEFINITION.

*An institution whose graduates are entitled to certificates shall provide at least a sufficient number of class hours of college grade to offer opportunity for freshman, sophomore, junior and senior year's work, making a total minimum of sixty hours for any one semester. Laboratory hours shall be reckoned as not less than two for one recitation hour.*

### THE EIGHT POINTS.

I. The number of class hours for the heads of departments and students shall not exceed twenty a week.

II. A faculty properly qualified shall consist of graduates of colleges who have pursued graduate work equivalent at least to that required for a master's degree.

III. The library shall consist of at least five thousand volumes, selected with reference to college subjects and exclusive of public documents.

IV. The laboratory equipment shall be worth not less than \$5,000.00 and so distributed as to establish at least an efficient chemical, physical, botanical and zoological laboratory.

V. The means of support is defined as requiring a permanent endowment of not less than \$200,000.00 or a fixed assured income exclusive of tuition equivalent to the interest derived from at least \$200,000.00.

VI. The average salary of the heads of departments, exclusive of the salary of the president, shall be at least \$1,000.00.

VII. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of these departments should be devoted to college work.

VIII. The graduates must show the completion of a four-year secondary course and a four-year college course above the usual eight grades of the common schools, and the standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

### THE GROUPING OF COLLEGES.

1. Colleges fully meeting the eight points shall constitute Group A.
2. Colleges meeting either five, six or seven of the eight points shall constitute Group B.
3. Colleges fully meeting either three or four of the eight points shall constitute Group C.
